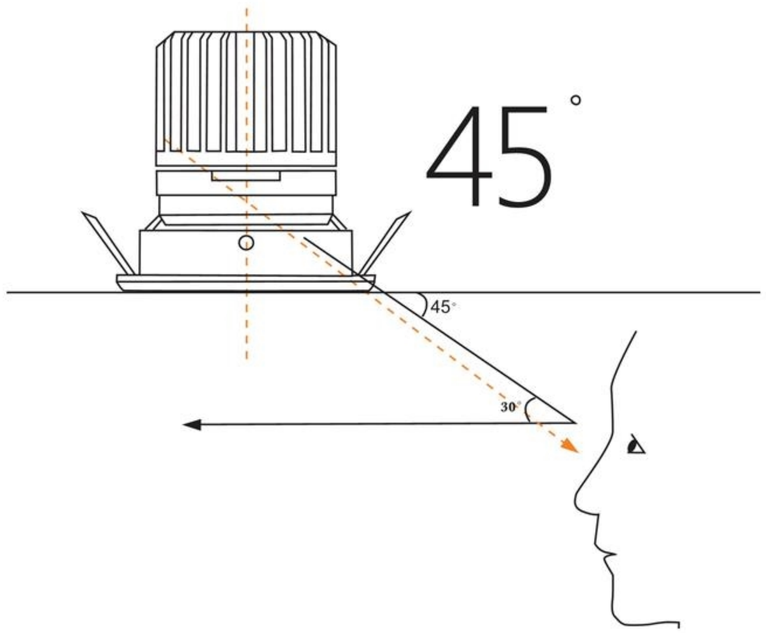
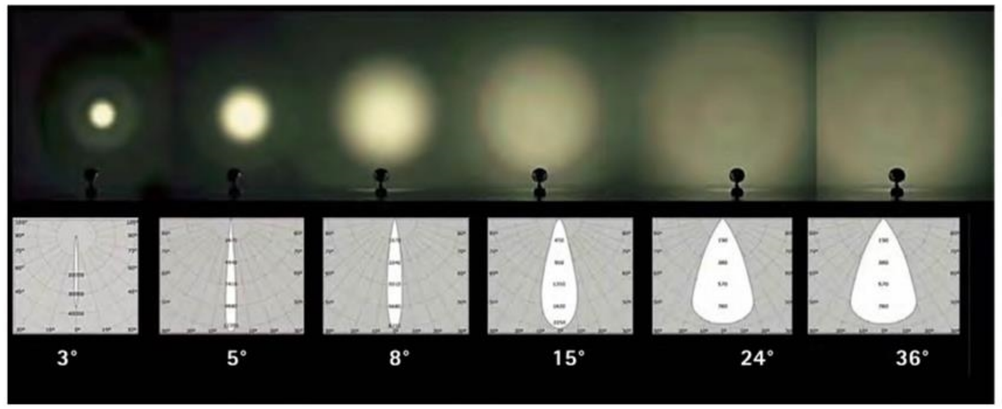
COMMERCIAL SPANCE

JW MARRIOTT

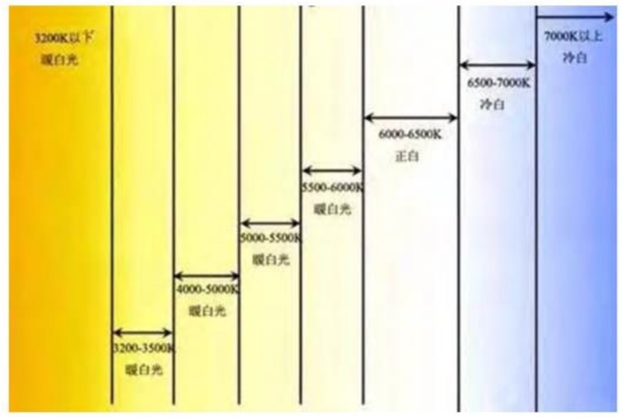
Precise Anti Glare

Dailux lamp's shielding angle reaches up to 45 degree,controling glare at sight so as to make eyes feels comfortable and create pure light.



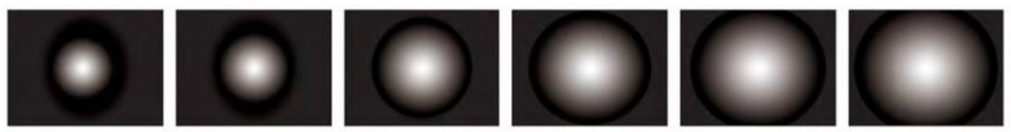


COB LED light have nine kinds of beam angle,3° /5° /8° /12° /15° /24° /36° /45° /60° , menting the diffent demands for lighting



Dailux knows well the requirement for color temperature consistency for the quality lighting ,Dailux applies the LED chips at high consistency from the quality chips manufacturers. All LED chips are sorted out,stored and processed in strict and scientific criterion to guarantee the LED chip in consistency in one batch.

Accurate Light Distribution And Control



3° 5° 8° 15° 24° 36°

Industry Initiative

DailuxLighting group, more than ten years of experience, combined with domestic and international professional hotel lighting designers, hotel decoration designers and hotel owners' requirements and recommendations, worked with the professional international brand of LED. lasted five years developed the most suitable hotel space and its subsidiary space of the optimal spectrum.

2500K

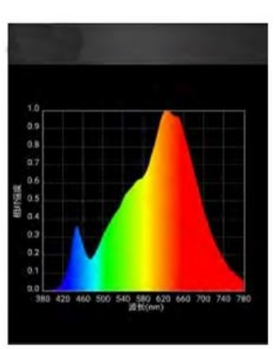
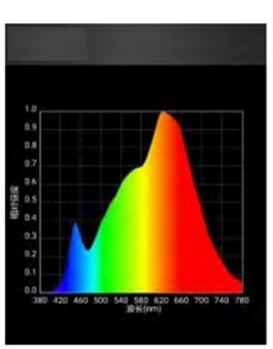
2800K



CRI97

3000K



CRI97

COB（chip on board）

COB ensures the uniformity of light without double image like incandescent.
he light from lamps with COB looks pure and natural while light from lamps with single-LED-chip has double image.

TRIDONIC Driver

PHILIPS Driver

EAGLERISE Driver

Lamp with strong heart

Dailux lamp has a powerful inner core which has a longer life than other illuminant.

We create a more vivid world.
New generation LED provides distinctive bright colors

Remark:

1. The price based on our conventional appearance color. For customized color, 5 percent fee will be charged.
2. Letter stands for the chip and driver code and double-digit stands for power as the following:

Chip: A--CREE B--EPISTAR C--OTHER

Driver: A--the standard B--0-10V dimmer C--silicon controlled dimmer
D--customized(Eaglerise,Philips etc.)

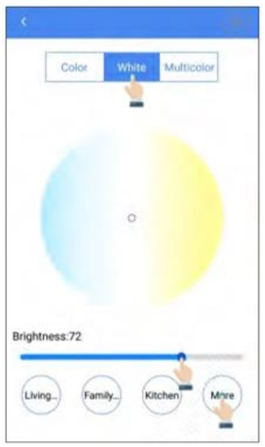
Power: 06--6W 09--9W 10--10W 20--20W and so on

E.g. BJ-JD8575A09-AA stands for BJ-JD8575A 9W CREE standard driver

Guidance > > > > >

3. **DALI Available:**

DALI intelligent control is available, mobile phone-specific APP can be used to adjust the brightness, color temperature and control specific light.



Magnetic System

Freely combined, freely disassembled, low-pressure rail system that moves left and right. Customizable intelligent control, mobile phone-specific APP dimming, color temperature , single light control.

Applications

DC24V/DC48V SYSTEM can be freely assembled in different ways of lighting effects, continuous linear lighting. can also focus on the gap lighting, because it has a magnet function, so you can quickly install and replace. DC24V/DC48V SYSTEM can be used recessed, surface mounted and pendant.

Reflections In Different Surface Treatments

Recessed COB LED down light.Diecasting Aluminam alloy with surface treatment of baking varnish finish or electrostatic powdering. Elegant appearance.Deep anti-glare.Double reflectors With uniform illumination. Excellent heat dissipation design decreases the lumens depreciation.With external LED driver.

Applications:
Star hotel , dining room, coffee shop,trade fair,corridor or bedroom etc.

PATENTED PRODUCT

A302 series >>>>>

The platinum crystal NGD series adopts mini integrated power adapter, patented design, easy to operate and easy to operate; two-wire, three-wire and four-wire multiple contact tracks can be selected to provide users with multiple choices and more effective space-saving use. Beautiful and simple.
